

What is my ...

Handprint

bringing kids
in the forest

nearly zero waste
policy

telling other people
about sustainability

self-produced food
in the garden (chickens)

Recycling nearly
everything

Handprint

- don't waste water
- only buy things I really need
- go by bike as often as possible
- don't waste energy
- talk about sustainability with friends + family
- don't need so much space for living
- teach kids about sustainability

Let's live sustainability in our organisations!

We've created a vision together

Let's be part of the transformation of schools

Inspired by the variety of perspectives,
nationalities, activities and missions!

My wish as a handprint

To support forest pedagogies

to transfer knowledge about forests and aware emotions

to bring the message of Sustainable Development in
an "understandable language" and

to enable them to shape the future.

could be smaller by using local food -
better to eat local meat than tropical fruits and
bottled water

i ^{and my family} will continue doing the following in a more advanced & aggressive manner:

- 
1.  and energy
no food wastage
2. develop more kiddie
earth ambassadors

3. join & encourage
others to grow than
just plant trees

4. advocate for more
climate-resilient
methods

agroforestry
5. join advocacies
that support
sustainable forests

Gubat para sa Tao
Tao para sa Gubat
6. be a good listener & adopter
of practices that
can be useful to us & the
future generation
